Wood at its best

 **SWISS KRONO**

Our Environmental Product Declaration

In order for environmental product balance sheets to be meaningful, they must be objectively comparable. So to let our customers easily understand and contrast our lifecycle analyses and environmental product data with those of other materials, we have firmly committed ourselves to a policy of total product transparency. We openly and voluntarily communicate the ecological balance sheets of our wood-based products in our Environmental Product Declarations (EPDs). Each EPD is issued by the Institute Construction and Environment e.V. (IBU) in a format which was developed on the basis of internationally valid ISO standards in close collaboration with building and environmental authorities in Germany.

We stand for ecology

The only way to master major challenges is for all players to pull on one rope. One of the biggest and most urgent tasks facing humanity today is to protect the environment. 'Together we are strong!' – this statement also applies to achieving the sustainability goals we have set ourselves. All of our staff are involved in protecting the environment on a day-to-day basis. Each and every one of them is appropriately informed, instructed and trained. This ensures that every department has the environmental expertise it requires.

We use our 'management for the earth' programme to raise the level of environmental awareness in the entire SWISS KRONO team. Our environmental management efforts focus on achieving the eco-efficiency defined in our corporate objectives. Every product that leaves our factory must exhibit both excellent price/performance and superb environmental compatibility. This starts with the exclusive use of legal, certified raw materials from sustainably managed forests, continues with rigorously monitored production, and is also ensured during subsequent utilisation and ultimate disposal of our products.

We have big plans

We have a clearly defined goal: we want you, us and future generations to be able to enjoy living in good health on our unique blue planet tomorrow as well. We are therefore continuing to develop eco-friendly wood-based materials which are healthy for you and the environment alike. Right now we are preparing EPDs for all of our Kronotex laminate floorings to facilitate direct comparison and checking of their environmental benefits.

Has our environmental commitment piqued your curiosity? We'll be happy to answer your questions. Simply e-mail us at sales.floor@swisskrono.de

Our Environmental Product Declarations (EPDs) are globally acknowledged and accepted Type III environmental labels conforming to ISO 14025.

Made in
Germany

A floor is the foundation for every type of room design, and hence the basis for creating one's own sense of what life should be all about. For this purpose, Kronotex opens up a completely new world for you. Experience laminate floors which meet all demands, which feature unique aesthetics and top-class quality. There is no limit to where your imagination can carry you!

Structures

Surfaces

Characteristics

Kronotex floors are low-maintenance and hard-wearing.

Kronotex floors are flame resistant.

Kronotex floors are largely resistant to cigarette burns.

Kronotex floors are non-fading and retain their brilliance over many years.

Kronotex floors are rugged, load and impact-resistant.

Kronotex floors are abrasion-resistant.

Kronotex floors are produced from natural sustainable raw materials.

Kronotex floors are comfortable underfoot.

Kronotex floors are well suited for installation over subfloor heating.

Kronotex floors are stain-resistant.

Individual features

These panels are especially long.

These panels are especially wide.

These panels are especially narrow.

These panels have a special surface structure.

high gloss surface

A snap-together system makes the flooring even easier to install.

These panels feature a 45° sloped edge. When they are joined together, a V-groove forms, producing a natural solid wood character. V4 – all the way round

antistatic

Fast installment thanks to an easy-to-use angle-angle locking system for the long and short sides of the boards.

The best and more. This is the promise of the new decors of the **MAMMUT plus** collection from Kronotex. While exhibiting the same technical mastery as all MAMMUT flooring, this new line offers you even more authenticity, an even larger choice of styles and even greater perfection. Apart from its incredible robustness and versatility, **MAMMUT plus** also raises the bar in other ways. Its extra-wide panels complement the existing extra-long and extra-sturdy versions of the MAMMUT family. And the decors seduce you with their elegantly authentic natural wood look, which can't help but add posh country-style comfort to your home.
